

Introducing...

Keep Informed

by Sitelligence

If your community could easily compile useful pertinent information on all or a group of residents, then have it automatically formatted and accessed securely online each week by family...

- Do you think this would help to create family confidence? Yes / No
 - Do you think it would create more staff resident interaction? Yes / No
 - Do you think this would give you a competitive edge? Yes / No
 - Do you think it would lead to more referrals? Yes / No
 - Do you think you could charge a fee for this service? Yes / No
- So do we!

Using current Resident Portal functionality communities can have some or all the following information presented to participating family members of your communities Keep Informed service...

- Weekly Resident Activity Attendance
- Weekly Written or Dictated Status Report
- Weekly Wellness Program Progress
- Weekly Medical Information from Caregivers
- Weekly Meal Consumption
- Weekly Picture(s) of Resident
- Weekly Observation Notes from Staff
- Weekly Day of Resident Room Cleaning

Charlie Corteer											

Staff currently using Resident Portal features continue to benefit from its features and is also alerted to any outstanding information needed prior to the end of the week when the report is generated. Reports can be viewed and edited prior to being released to family. Family is alerted when the report is ready for viewing.

The Resident Portal is HIPPA compliant, web based and an iPad app, easy to implement, use, affordable by any community standards and delivers a return over the low monthly subscription fee. You decide the features you want. We get you setup, trained and ready to go. Keep Informed feature is now included in the list of features of the Resident Portal.

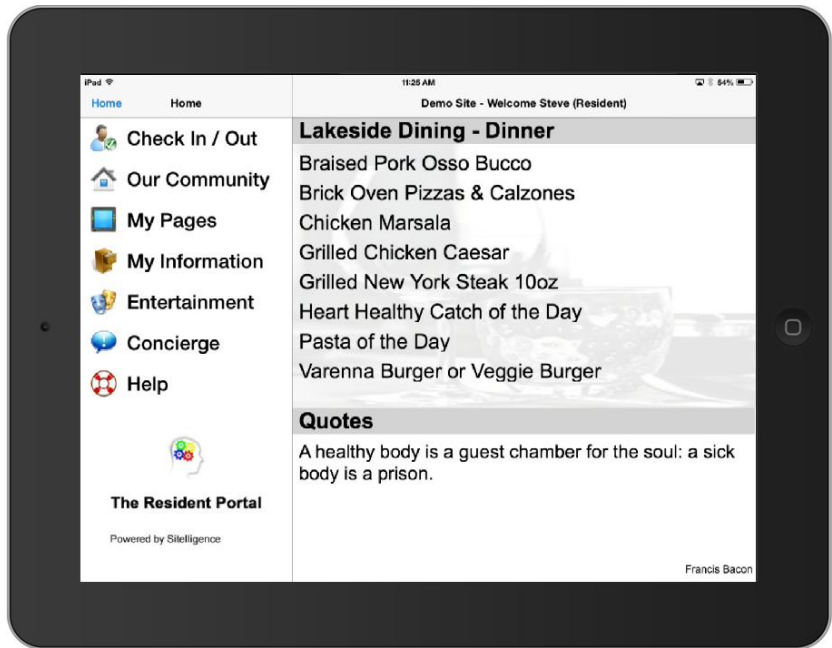

"The Sitelligence product was the strongest application I saw."

Dave Noll - Sr. Business Analyst at Emeritus Corporation

"It is comprehensive, intuitive and provides functionality for both residents and staff."
